*"I have been a customer of Taste for over 7 years. I have seen them grow from a much smaller operation to what they are now. The reasons they are the best are:*

- 1) The quality of their food has always been amazing*
- 2) Their high level of customer service is unbelievable - they stand behind everything they offer, their staff is incredibly competent, friendly and amazing*
- 3) In addition to amazing food and many other convenient services*
- 4) Lastly they treat their regular customers like family - They recently donated buffet platters, which I ordered for a friend's memorial services reception. The best part is that their prices are very reasonable. I have had the opportunity to utilize their service, both for business and personal use."*

*"OMG, Taste Catering is AWESOME!!! We were very nervous about getting everything right for our wedding, it was absolutely hectic, but the one thing that we worried the least about was the catering. From the day we called and Nacho answered the phone, he speaks perfect English by the way, no accent at all so there was no language barrier like a few others we experienced, but anyways, he was very informative, not pushy, and every comment was in our best interest, not theirs. He asked a lot of questions, listened and reiterated everything we had to say, and we felt comfortable right off the bat. When Nacho and Jaycee met us to survey the sight, we couldn't have been more pleased. They were very professional, but full of energy, ideas, and the meeting just flowed. After seeing an absolutely delightful menu, the prices were very reasonable, and the peace of mind sold us on the spot! We signed the contract and everything was under way. When we went to sample the food and pick our menu, the staff was very professional, and the food, total gourmet at reasonable prices!! The greatest thing is that we barely had to interact at all as Nacho took care of everything. He and Jayce only called when absolutely necessary, and they are very intelligent and good at what they do. When I say intelligent I say that because they were able to take care of miscellaneous problems, common sense I should say. They never assumed anything and that led to a smooth road to our wedding. The day was beautiful, a few hiccups here and there, but the catering, unbelievably perfect!! Nacho and Jaycee both came to greet and congratulate us personally and to make sure everything went really smooth, which it did. I cannot begin to tell you how wonderful Taste Catering was to us, I almost want to get divorced and remarry so I can have them cater my wedding again!! Just kidding honey (^\_^) Just give them a call, ask for Nacho and you'll see what I mean right away!!"*
